Mobile-First Design Rules

1. **All pages must work on 360px width.**
2. **Buttons minimum height:**

44px

3. **Forms optimized for thumb usage.**
4. **Bottom navigation always visible.**
5. **Checkout process maximum 3 steps.**

UI Component Library

Use:

- **ShadCN UI**
- **TailwindCSS**
- **Lucide Icons**

Core Components:

- **Button**
- **Card**
- **Input**
- **Modal**
- **Drawer**
- **Table**
- **Badge**
- **Alert**
- **Dropdown**
- **Tabs**

MVP Design Success Criteria

A customer should be able to:

1. **Open website**
2. **Find products within 10 seconds**
3. **Add products to cart**
4. **Checkout in under 2 minutes**
5. **Track order status easily**

An admin should be able to:

1. **Add products**
2. **Update stock**
3. **Manage orders**
4. **Monitor daily business**

without training or technical knowledge.

The design should prioritize simplicity, trust, speed, and usability over visual complexity, ensuring smooth adoption by customers in small-town India.
